

ADRIAN PAIU AT EE FINE ART

This month EE Fine Art hosts an exhibition of work by Romanian artist Adrian Paiu. His paintings depict a subtle, mysterious but friendly world in which all his figures and objects seem to appear from a haze. His stunning, but subtle pieces show fascinating little creatures with long spindly legs and masks for faces, which are beautiful and often amusing. Born in Romania in 1966, Paiu has been painting professionally for more than 20 years. His work has been exhibited widely in Romania and the USA and can be found in private collections all over the world.

Later in the month, from 26 March, Russian artist Andrey Lipatov will be exhibiting his vibrantly colourful and humorous paintings which depict rural scenes and customs in his homeland.
