

# EE FINE ART

EE Fine Art is the name of the city's newest art gallery, situated in Cobble Yard, just behind the Grafton Centre, off Napier Street. The 'EE' stands for Eastern Europe – since the gallery specialises in contemporary art from Eastern Europe and Russia. Mark and Louise Stephenson, who established the business together in 2005 are planning to hold 16 exhibitions each year, and have a roster of many established and emerging artists to call on.

October's featured exhibition is by Romanian artist Adrian Doni, whose paintings are described as "demonstrating a mastery of design, colour, composition and draftsmanship." His vivid use of colour is a means of communicating his essential optimism.

Future exhibitions to look out for include one featuring the work of former child prodigy Roxana Donisanu, another Romanian artist.
